Grade Span:

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2022–23)

Each year, local youth come to the San Jose Conservation Corps looking for a chance to become successful in school. They come of their own accord, knowing that they want to do something more with their lives. With their personal history of repeated school failure, substance abuse, incarceration, gang involvement, domestic violence, parenting (sometimes by themselves) and diagnosed learning disabilities, taking the first step to contact the school is even a big hurdle to overcome. More than half are from low-income families and qualify for free or reduced-cost lunch. One in five students are justice involved. Some are former foster youth. Nearly a third are effectively homeless.

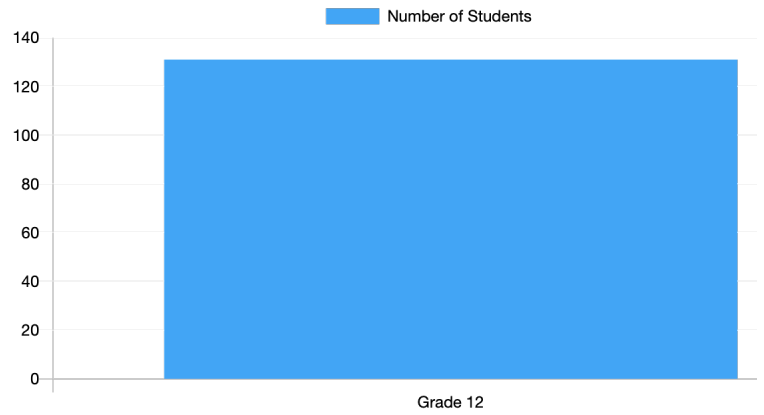

Where most people see little hope for these young people, we at the San Jose Conservation Corps see an opportunity— an opportunity to provide critical support, a positive learning environment, job training in a variety of technical areas, and lifelong skills to youth who, for the most part, have been abandoned by the educational system and stuck in low-paying jobs with little or no opportunity for advancement. In order for these students to be successful, the school has created a community and learning environment in which these students feel supported and valued.

In 1987, the San Jose Conservation Corps was founded on the principles of giving youth in San Jose a second chance at earning their high school diploma and gaining the skills they need to obtain a living wage job or continue their education beyond high school. The San Jose Conservation Corps has become a leader in promoting a safe, healthy, and structured environment for work and learning; nurturing students' aspirations and providing the opportunity for post-secondary education; offering high-quality vocational instruction and paid job training in the areas of green energy (solar installation and water conservation), recycling, and environmental conservation; teaching work ethic, teamwork, and essential life skills through mentoring and leadership training; encouraging healthy life choices through positive role modeling and a variety of personal development, including conflict resolution, substance abuse prevention, and responsible driving education; and promoting economic self-sufficiency through career assessment, employment development, and job placement and follow-up services.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Teacher Preparation and Placement (School Year 2020–21)

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
- Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
- California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

- College and Career Ready:** The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

CAASPP Test Results in ELA and Mathematics for All Students

Grades Three through Eight and Grade Eleven taking and completing a state-administered assessment

Percentage of Students Meeting or Exceeding the State Standard

Subject	School 2020–21	School 2021–22	District 2020–21	District 2021–22	State 2020–21	State 2021–22
English Language Arts / Literacy (grades 3–8 and 11)	N/A		N/A		N/A	47%
Mathematics (grades 3–8 and 11)	N/A		N/A		N/A	33%

Note: Where it was the most viable option, in 2020–21, LEAs were required to administer the statewide summative assessment in ELA and mathematics and where a statewide summative assessment was not the most viable option for the LEA, LEAs were permitted report results from a different assessment that meets the criteria established by the California State Board of Education on March 16, 2021. The 2020–21 data cells for the school, district, state have N/A values because these data are not comparable to 2021–22 data.

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Career Technical Education (CTE) Programs (School Year 2021–22)

Zero Waste

The Zero Waste Department is a program in which students learn valuable skills in the recycling industry while serving their community. On any given day, our recycling corpsmembers can be found throughout the County of Santa Clara serving a wide range of clients and recycling at over 170 special events. On the collections team, students gain driving experience in our large-scale trucks. They learn the basics of completing a collection route while providing excellent customer service. This team also performs the pre-inspection of their vehicle before starting their route, as mandated by the Department of Transportation. Driver and helper teams learn to navigate routes, read maps, operate GPS equipment while working safely to achieve monthly zero accident awards. Our Eco Academy team is the heart of our operation. In this team, students learn the basics of recycling through a 13-unit course with core curriculum that includes recycling and environmental education classes, processing of recyclables, and forklift certification. This team is directly responsible for the processing of all incoming recyclable material via our conveyor system, built by our very own students. This team also conducts the recycling/waste management of SJCC facilities.

Environmental Projects

The Environmental Projects Department provides entry-level positions for all new trainees. Following the orientation program, the new trainees are assigned to one of 6 Field Supervisors and a crew of 12 young people. Here they learn the work ethic the importance of being on time everyday, how to work with their supervisors and fellow trainees and the importance of showing up, ready to work, on a daily basis. Together, they work throughout the south bay area on environmental and community projects provided by our many sponsors, such as the Santa Clara Valley Water District, and the City of San Jose Parks, Recreation, and Neighborhood Services Department.

CTE Department

The Advanced Career Technical Education Department focuses on providing students skills and career pathways. All programs have a hands on learning approach with “on the job” training. Students work alongside industry professionals during lighting retrofit projects and on residential/commercial rooftops installing solar PV systems. All of the ACTE program emphasize the team and not the individual. ACTE provides supervision and training from skilled staff and industry leading professionals. Also includes the construction of Tiny Homes.

Emergency Services

As of March 2019 SJCCCS has offered Emergency Services as a department in our CTE Program. SJCCCS was contracted via state and city services to provide emergency services during the COVID 19 Pandemic. These departments include Emergency Shelters and Food Security.

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8):

- Pupil outcomes in the subject area of physical education

California Physical Fitness Test Results (School Year 2021–22)

Note: Due to changes to the 2021–22 PFT administration, only participation results are required for these five fitness areas.

Note: Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site

Opportunities for Parental Involvement (School Year 2022–23)

?Since the majority of the student body is over 18 and many do not live with parents, our parental involvement consists of making sure the students are involved in school activities and decisions. Both campuses have a student council that is consulted with on a regular basis. Students complete a survey twice a year to gather feedback on how the program is doing and give them a forum to suggest improvements. Students are engaged during the LCAP process not only through the survey but also through focus groups. Finally, all school administration, all the way up to the head of school, have an open door policy. Students are welcome to come to any member of the team to share information and/or suggest changes.

During the 22-23 school year SJCCCS did create a parent engagement committee that meets monthly. This committee also volunteers for school wide events.

State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school dropout rates;
- High school graduation rates; and
- Chronic Absenteeism

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions for School Year 2019–20 Only

(data collected between July through February, partial school year due to the COVID-19 pandemic)

Suspensions	0.00%	2.87%	2.45%
Expulsions	0.00%	0.03%	0.05%

Note: The 2019–20 suspensions and expulsions rate data are not comparable to other year data because the 2019–20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019–20 school year compared to other school years.

School Safety Plan (School Year 2022–23)

The San Jose Conservation Corps and Charter School's main priority is to provide a safe, clean, and secure learning environment for all of our students and staff. The safety plan was reviewed and updated in July 2022. The plan was presented to all charter school staff in August 2022. The plan was also presented to all non-charter school staff in August 2022. The plan includes emergency contact information, evacuation procedures, and the steps to take in the event of emergency and community resources. Administrators, campus supervisor, campus officers, and all teachers at SJCCCS share in the supervision of the campus. First aid kits and fire extinguishers have been placed in all classrooms and in key locations of the campus and visibly marked. The San Jose Conservation Corps Charter School is inspected yearly at both sites by the San Jose Fire Department. Additionally, the plan includes details for fire, earthquake, bomb, chemical, and shooter on campus scenarios.

SJCCCS' educational philosophy is grounded in the belief that in order for students to be engaged in their own education, they need to be engaged in the community that surrounds them so that they can discover real- world connections to their learning. Thus, SJCCCS utilizes learning modalities that are active and experiential, integrated across curriculum, supportive of students' personal development and emotional needs, and focused on the larger purpose of preparing students to positively engage in their communities and natural environments. SJCCCS serves its students through the application of the following educational practices and beliefs:

- A. Holistic Educational Approach
- B. Vocational and Career Technical Education
- C. Integration of Technology and 21st Century Skills
- D. Open Enrollment and Grading Periods
- E. Positive Learning Environment
